

Herb Garden

1. Make a simple plan of the herb garden.
2. Find where Southernwood and Sage grow, and mark them on the plan.
3. Find as many different types of Mint as you can.
4. As a group, choose one herb that you think looks interesting or has an interesting name. The group leader may pick a few leaves of this herb to take back to the classroom.

Classroom:

In the herb booklet:

1. Write out one way mint can be used as a medicine.
2. Make a sketch of the herb chosen by the group.
3. Write out the herb's name.
4. Write down one way it may be used as a medicine.
